1. **Introduction**

Leisure Suit Larry VGA is the 256-color remake of Larry's first adventure. It features Larry Laffer as a man looking for love in the city of Lost Wages. A new icon interface replaces the original typing interface, and the graphics look much better as well. Apart from these small changes though, there are no notable differences between the two games. Lacking a decent plot, Leisure Suit Larry VGA still remains a strong game in the series.
